Independent Auditor's Report

The Board of Trustees of
Goodrich Independent School District
Goodrich, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Goodrich Independent School District (the District), as of and for the fiscal year ended August 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Goodrich Independent School District, as of August 31, 2018, and the respective changes in financial position for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1.D. to the basic financial statements, during the year ended August 31, 2018, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Beginning net position has been restated as a result of the implementation of this statement. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Required Supplementary Information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Goodrich Independent School District's basic financial statements. The Supplementary Information and Schedule of Required Responses to Selected School FIRST Indicators, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Supplementary Information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplementary Information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Schedule of Required Responses to Selected School FIRST Indicators has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

The Board of Trustees of
Goodrich Independent School District

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 14, 2018 on our consideration of Goodrich Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the Goodrich Independent School District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended August 31, 2018.

Financial Highlights

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$2,080,677 (*net position*). Of this amount, \$684,957 (*unrestricted net position*) may be used to meet the District's ongoing obligations to students and creditors.
- The District's total net position decreased by \$735,282, which includes an increase from current operations of \$781,724 and a decrease of \$1,517,006 due to the implementation of GASB 75.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$2,829,862, a decrease of \$836,732 in comparison with the prior year.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$1,691,222, or 66 percent of total general fund expenditures.
- The District's total bonded debt decreased by \$86,540 (3 percent) during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information and supplementary and other information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* (Exhibit A-1) presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* (Exhibit B-1) presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused sick leave).

The government-wide financial statements of the District are principally supported by taxes and intergovernmental revenues (*governmental activities*). The governmental activities of the District include *Instruction, Instructional Resources and Media Services, Curriculum and Instructional Staff Development, School Leadership, Guidance, Counseling, and Evaluation Services, Health Services, Student Transportation, Food Services, Extracurricular Activities, General Administration, Plant Maintenance and Operations, Security and Monitoring Services, Data Processing Services, Interest on Long-term Debt, Issuance Costs and Fees, Payments Related to Shared Services Arrangements, and Other Intergovernmental Charges*.

The government-wide financial statements can be found as noted in the table of contents of this report.

In fiscal year 2018, the District implemented the Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* – which superseded GASB Statement No. 45.

Statement No. 75 establishes financial reporting standards and/or accounting standards for state and local government defined benefit OPEB plans and defined contribution OPEB plans. Statement No. 75 requires that, at transition, a government recognizes a beginning OPEB liability and beginning deferred outflow of resources for its OPEB contributions, if any, made subsequent to the measurement date of the beginning net OPEB liability. The implementation of this statement has no impact on the District's governmental fund financial statements. However, implementation has resulted in certain changes to the presentation of the District's government-wide financial statements. More information on the implementation of this statement and the District's OPEB plan is available in Note 1. D. and Note 4.D., respectively.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a District's near-term financing requirements.

Because the focus of governmental funds financial statements is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains 12 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund, and capital projects fund, which are considered to be major funds. Data from the other 9 governmental funds are combined into a single, aggregated presentation titled nonmajor governmental funds.

The District adopts an annual revenue and appropriated budget for its general fund, debt service fund and national school breakfast and lunch program. All other governmental funds adopt project length budgets. Subsequent to adoption, amendments approved by the governing body are reflected in a revised budget column. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found as noted in the table of contents of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of students. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the District's own programs.

The basic fiduciary fund financial statements can be found as noted in the table of contents of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found as noted in the table of contents of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report presents required supplementary information and supplementary and other information including schedules required by the Texas Education Agency. Such information can be found as noted in the table of contents of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a District's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$2,080,677 at the close of the most recent fiscal year.

Net investment in capital assets (e.g., land and improvements, buildings and improvements, furniture and equipment), less any related debt used to acquire those assets that are still outstanding represent 62 percent of the District's net position. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. Net position that is restricted for grants and debt service totaled \$121,430 or 6 percent of net position. The unrestricted net position of \$684,957 (32 percent of total net position) may be used to meet the District's ongoing obligations to students and creditors.

Governmental Activities. The District's net position increased by \$781,724 from current operations. Key elements of the changes are as follows:

(a) The restatement of the beginning net position is the result of the District implementing GASB Statement No. 75 in fiscal year 2018. The implementation is discussed previously in MD&A.

Revenues are generated primarily from two sources. Grants and contributions (program and general revenues totaling \$1,589,601) represent 51 percent of total revenues and property taxes (\$1,445,213) represents 47 percent of total revenues. The remaining 2 percent is generated from charges for services, investment earnings, and miscellaneous revenues. The most significant change in revenues is the decrease in on-behalf revenue from OPEB.

The primary functional expenses of the District is Instruction (\$889,015) which represents 38 percent of total expenses, as well as, General Administration and Plant Maintenance which represent 11 and 12 percent of total expenses, respectively. The remaining functional categories of expenses are individually 8 percent or less of total expenditures. The most significant decrease in expenses was from the reduction of expenses from OPEB.

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$2,829,862, a decrease of \$836,732 in comparison with the prior year.

The general fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$1,691,222, while total fund balance reached \$1,816,845. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance to total fund expenditures. Unassigned fund balance represents 66 percent of total general fund expenditures, while total fund balance represents 71 percent of the same amount. The revenues and expenditures remained consistent when compared to prior year.

The fund balance of the District's general fund increased by \$410,983 during the current fiscal year. The increase in fund balance was primarily due to increases in local and intermediate revenue, as well as, state program revenue.

The debt service fund has a total fund balance of \$53,884, all of which is restricted for the payment of debt service. The increase in fund balance during the current year was due to property tax revenues related to the increase in tax revenue from an increase in tax rate.

The capital projects fund has a total fund balance of \$879,389, all of which is restricted for future construction projects. The net decrease in fund balance during the current year of \$1,288,832 was primarily due to construction expenses.

General Fund Budgetary Highlights

The District amended the budget several times throughout the year. There were no significant variations between the original and final budget.

There were no significant variations between the final budget and actual results. No variations are expected to have a significant effect of future services or liquidity.

Capital Assets and Long-term Liabilities

Capital Assets. The District's investment in capital assets for its governmental type activities as of August 31, 2018, amounts to \$3,426,225 (net of accumulated depreciation). This investment in capital assets includes land and improvements, buildings and improvements, furniture and equipment, and construction in progress. The total increase in the District's investment in capital assets for the current fiscal year was \$1,255,010.

Major capital asset events during the current fiscal year included the following:

- \$1,234,992 spent on capital projects to renovate the school, build bus canopies, and build a new playground.
- \$91,712 spent on a bus and \$39,715 spent on a 2018 Chevrolet Suburban.
- \$31,086 spent on various food service equipment.

Additional information on the District's capital assets can be found in notes to the financial statements as noted in the table of contents of this report.

Construction Commitments. At the end of the current fiscal year, the District's commitments with construction contractors, including purchase orders, totaled \$336,235.

Long-term Liabilities. At year-end, the District had the following long-term liabilities:

| Totals | \$ 4,141,594 | 100 | \$ 4,932,569 | 100 | \$ (790,975) | |

The District's bonded debt decreased by \$86,540 (3 percent) during the current fiscal year as a result of scheduled debt payments. Notes payable increased by \$20,406 (106 percent) during the current fiscal year as a result of a new note being taken out to purchase the 2018 Chevrolet Suburban. The District's general obligation debt is backed by the full faith and credit of the District and is further guaranteed by the Texas Permanent School Fund Guarantee Program.

State statutes do not limit the tax rate or amount for the support of school districts' bonded indebtedness. However, approval of the Attorney General of the State of Texas is required prior to the sale of bonds.

Additional information on the District's long-term debt, net pension liability, and OPEB liability can be found in the notes to the financial statements as indicated in the table of contents of this report.

Economic Factors and Next Year's Budgets and Rates

- Current enrollment totals 234 students.
- District staff totals 47 employees, which includes of 17 teachers and 12 teachers' aides and secretaries.
- The District maintains 3 campuses for instruction.
- The unemployment rate for the County is currently 5 percent, which is a decrease from a rate of 6.2 percent a year ago. This compares unfavorably to the state's average unemployment rate of 3.9 percent, which is a decrease from a rate of 4.5 percent a year ago.
- Property values of the District are projected to remain stable in 2018-2019.
- A maintenance and operations tax rate of \$1.17 and a debt service tax rate of \$.1601, a total rate of \$1.3301, were adopted for 2018-2019. The preceding year rate was \$1.17 for maintenance and operations with a \$.1609 debt service tax rate.

All of these factors were considered in preparing the District's budget for the 2019 fiscal year.

During the current fiscal year, unassigned fund balance in the general fund increased to \$1,691,222. The District plans to utilize unassigned fund balance to fund current expenditures prior to collecting the current year tax levy.

August 31, 2018

Exhibit C-1R

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS (EXHIBIT C-1) **\$ 2,842,147**

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds. The governmental capital assets at year-end consist of:

| | | |
|---|--------------------|-----------|
| Governmental capital assets costs | \$ 10,062,995 | |
| Accumulated depreciation of governmental capital assets | <u>(6,636,770)</u> | 3,426,225 |

| | |
|---|---------|
| Property taxes receivable, which will be collected subsequent to year-end, but are not available soon enough to pay expenditures and, therefore, are deferred in the funds. | 327,801 |
|---|---------|

Long-term liabilities, including bonds payable, notes payable, compensated absences, and net pension and OPEB liability, are not due and payable in the current period and, therefore, are not reported as liabilities in the funds. Liabilities at year-end related to such items consist of:

| | | |
|-----------------------------------|------------------|-------------|
| Bonds payable, at original par | \$ (2,845,000) | |
| Premiums on bonds payable | (146,609) | |
| Accrued interest on bonds payable | (3,513) | |
| Notes payable | (39,715) | |
| Accrued interest on notes payable | (1,835) | |
| Compensated absences | (11,225) | |
| Net pension liability | (233,755) | |
| Net OPEB liability | <u>(865,290)</u> | (4,146,942) |

| | |
|--|--------|
| Deferred outflows of resources for pension represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expenses/expenditures) until then. | 72,564 |
|--|--------|

| | |
|--|----------|
| Deferred inflows of resources for pension represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. | (80,508) |
|--|----------|

| | |

| Deferred outflows of resources for OPEB represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expenses/expenditures) until then. | 13,628 |

Goodrich Independent School District
Reconciliation of the Statement of Revenues,
Expenditures, and Changes in Fund Balances of
Governmental Funds to the Statement of Activities
For the Fiscal Year Ended August 31, 2018

Exhibit C-3

TOTAL NET CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS (EXHIBIT C-2) **\$ (824,447)**

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is capitalized and allocated over their estimated useful lives as depreciation expense.

| | | |
|--------------------------|------------------|-----------|
| Capital assets increased | \$ 1,397,434 | |
| Depreciation expense | <u>(142,494)</u> | 1,254,940 |

Because some property taxes will not be collected for several months after the District's fiscal year end, they are not considered "available" revenues and are deferred in the governmental funds. Deferred tax revenues increased (decreased) by this amount this year. (8,826)

Issuance of notes provides current financial resources to government funds, but issuing debt increases long-term liabilities in the statement of net position (39,715)

Repayment of bond and note principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 99,309

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. The changes are reported in the statement of activities and consist of the following:

| | | |
|---|--------------|-------|
| Accrued interest on bonds payable (increased) decreased | \$ 53 | |
| Accrued interest on notes payable (increased) decreased | (1,017) | |
| Amortization of bond premium | <u>6,540</u> | 5,576 |

The (increase) decrease in compensated absences is reported in the statement of activities but does not require the use of current financial resources and, therefore, is not reported as expenditures in the governmental funds. 1,600

The net change in net pension liability, deferred outflows, and deferred inflows is reported in the statement of activities but does not require the use of current financial resources and, therefore, is not reported as expenditures in the governmental funds. The net change consists of the following:

| | | |
|---|---------------|-------|
| Deferred outflows increased (decreased) | \$ (31,723) | |
| Deferred inflows (increased) decreased | (27,071) | |
| Net pension liability (increased) decreased | <u>60,905</u> | 2,111 |

The net change in net OPEB liability, deferred outflows, and deferred inflows is reported in the statement of activities but does not require the use of current financial resources and, therefore, is not reported as expenditures in the governmental funds. The net change consists of the following:

| | | |
|---|----------------|---------|
| Deferred outflows increased (decreased) | \$ 3,008 | |
| Deferred inflows (increased) decreased | (361,953) | |
| Net pension liability (increased) decreased | <u>662,336</u> | 303,391 |

Notes to the Financial Statements

Note 1. Summary of Significant Accounting Policies

Description of Government-wide Financial Statements

A. Reporting Entity

The Goodrich Independent School District (the District) is governed by a seven-member board of trustees (the Board), which has governance responsibilities over all activities related to public, elementary and secondary, education within the District. Members of the Board are elected by the public; have authority to make decisions; appoint management and significantly influence operations; and have primary accountability for fiscal matters; the District is not included in any other governmental reporting entity. The accompanying financial statements present the District.

B. Basis of Presentation – Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government (the District). All fiduciary activities are reported only in the fund financial statements. *Governmental activities* are normally supported by taxes, intergovernmental revenues, and other nonexchange transactions.

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

C. Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category—governmental and fiduciary—are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

The *general fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those accounted for in another fund.

The *debt service fund* is used to account for the accumulation of resources that are restricted, committed, or assigned for the payment of principal and interest on long-term obligations of governmental funds.

The *capital projects fund* accounts for the acquisition and construction of the District's major facilities.

Additionally, the District reports the following fund types:

The *special revenue funds* are used to account for the proceeds of specific revenue sources (other than those identified as a major fund) that are restricted or committed to expenditures for specific purposes.

The *agency fund* accounts for assets held by the District for student organizations. The fund is custodial in nature (assets equal liabilities) and does not involve measurement or results of operations.

Goodrich Independent School District

Notes to the Financial Statements

During the course of operations, the District has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds are eliminated in governmental activities.

D. Change in Accounting Principle

In fiscal year 2018, the District implemented Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* – which supersedes GASB Statement No. 45.

The requirements of Statement No. 75 apply to the financial statements of all state and local government employers whose employees are provided postemployment benefits other than pensions. This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expense related to the OPEB plan. Note disclosure and RSI requirements about the OPEB plan also are addressed. The implementation of Statement No. 75 has no impact on the District's governmental fund financial statements, which continue to report expenditures in the contribution amount determined legislatively. Refer to Note 4.D. for more information regarding the District's OPEB plan. The implementation of Statement No. 75 resulted in the retroactive reduction of the District's beginning net position by \$1,517,006. See Note 4.F. for details of the District's prior period adjustment and restatement of beginning net position.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as required under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Goodrich Independent School District

Notes to the Financial Statements

Interest associated with the current fiscal period is all considered to be susceptible to accrual and has been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the District.

The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

F. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. Cash and Cash Equivalents

The District’s cash and cash equivalents are considered to be cash on hand and bank demand or time deposits with original maturities of three months or less from the date of acquisition.

2. Deposits and Investments

Investments for the District, except for certain investment pools and non-negotiable certificates of deposits, are reported at fair value. The investment pools operate in accordance with appropriate state laws and regulations and are reported at amortized cost or fair value. Non-negotiable certificates of deposit are reported at cost.

3. Capital Assets

Capital assets, which include land and improvements, buildings and improvements, and furniture and equipment, are reported in the applicable governmental activities column in the government-wide financial statements. The District’s infrastructure includes parking lots and sidewalks associated with various buildings. The cost of the infrastructure was initially capitalized with the building cost and is being depreciated over the same useful life as the building. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000, and an estimated useful life in excess of two years.

In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities), the District chose to include all such items regardless of their acquisition date or amount. The District was able to estimate the historical cost for the initial reporting of these assets through back trending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). As the District constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

Land and improvements are not depreciated. The buildings and improvements and furniture and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

| Capital Asset Classes | Lives |
|----------------------------|-------|
| Buildings and improvements | 10-50 |
| Furniture and equipment | 3-30 |

Goodrich Independent School District

Notes to the Financial Statements

4. *Deferred Outflows/Inflows of Resources*

Deferred outflows of resources represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditures) until then. Deferred inflows of resources represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time.

Deferred outflows/inflows of resources are amortized as follows:

- Deferred outflows/inflows from pension and OPEB activities are amortized over the weighted average remaining service life of all participants in the respective qualified pension plan and OPEB, except for projected and actual earnings differences on investments which are amortized on a closed basis over a 5-year period.
- District contributions to the pension and OPEB plans after the measurement date of each plan are recognized in the subsequent year.
- Property taxes are recognized in the period the amount becomes available.

5. *Compensated Absences*

It is the District's policy to permit employees to accumulate earned but unused state leave benefits. Payment for unused state leave days accumulated locally will be made upon retirement (in accordance with guidelines established by the Teacher Retirement System of Texas) for professional personnel. All state leave is accrued when an employee is eligible for retirement in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, the result of employee terminations.

The District does not have a liability for unpaid vacation at year end because the District's policy does not allow a carryover of vacation not taken at August 31.

6. *Net Position Flow Assumption*

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

7. *Fund Balance Flow Assumptions*

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

8. *Fund Balance Policies*

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

Goodrich Independent School District

Notes to the Financial Statements

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The board of trustees (the Board) is the highest level of decision-making authority for the District that can, by board action or adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by board action or the resolution remains in place until a similar action is taken (the board action or adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The Board has, by policy, authorized the superintendent or his designee to assign fund balance. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

9. Pension

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

10. Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

G. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program *revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

2. Property Taxes

Property values are determined by the county appraisal district as of January 1 of each year. Prior to September 1 of each year, the District must adopt its annual budget and as soon thereafter as practicable, shall adopt a tax rate thus creating the tax levy. Property taxes for the current calendar year are levied on approximately October 1 of each year and are payable by January 31 of the following year. Property tax receivables are recorded as of the date levied. Unpaid taxes become delinquent on February 1 and a tax lien on real property is created as of July 1 of each year.

Goodrich Independent School District

Notes to the Financial Statements

H. Use of Estimates

The presentation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

I. Data Control Codes

The Data Control Codes refer to the account code structure prescribed by Texas Education Agency (TEA) in the *Financial Accountability System Resource Guide*. TEA requires school districts to display these codes in the financial statements filed with TEA in order to ensure accuracy in building a statewide data base for policy development and funding plans.

Note 2. Stewardship, Compliance, and Accountability

A. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund, National School Breakfast and Lunch Program special revenue fund and Debt Service Fund. All other governmental funds adopt project-length budgets. All annual appropriations lapse at fiscal year end. The following procedures are followed in establishing the budgetary data reflected in the financial statements.

1. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board.

The appropriated budget is prepared by fund, function, and campus/department. The District's campus/department heads may make transfers of appropriations within a campus/department. Transfers of appropriations between campus/departments require the approval of the District's management. Transfers of appropriations between functions require the approval of the Board. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the function level.

Notes to the Financial Statements

B. Encumbrances

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are reported as restricted, committed, or assigned fund balances as appropriate. The encumbrances do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

Significant encumbrances included in the governmental fund balances are as follows:

| | Encumbrances Included in: | |
|---------------------------|----------------------------|--------------------------|
| | Restricted Fund Balance | Assigned Fund Balance |
| General fund | \$ - | \$ 125,623 |
| Capital projects fund | 336,235 | - |
| Total encumbrances | \$ 336,235 | \$ 125,623 |

Note 3. Detailed Notes on All Funds

A. Deposits and Investments

Cash Deposits

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the Texas School Depository Act. The depository bank pledges securities which comply with state law and these securities are held for safekeeping and trust with the District's and the depository banks' agent bank. The pledged securities shall be in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

Investments

The District's investment policy is in accordance with the Public Funds Investment Act, the Public Funds Collateral Act, and federal and state laws. State law and District policy limits credit risk by allowing investing in 1) Obligations of the United States or its agencies which are backed by the full faith and credit of the United States, obligations of the State of Texas or its agencies, counties, cities and other political subdivisions of any state rated as to investment quality by a nationally recognized statistical rating organization (NRSRO) not less than A or its equivalent; 2) Certificates of deposit issued by a broker or depository located in Texas which is insured by the FDIC; 3) Repurchase agreements secured by obligations of the United States or its agencies not to exceed 90 days to maturity from the date of purchase; 4) Bankers acceptances with a stated maturity of 270 days or fewer which are eligible for collateral for borrowing from a Federal Reserve Bank; 5) No-load money market mutual funds which shall be registered with the Securities and Exchange Commission which have an average weighted maturity of less than two years, investments comply with the Public Funds Investment Act and are continuously rated not less than AAA by at least one NRSRO; 6) A guaranteed investment contract (for bond proceeds only) which meets the criteria and eligibility requirements established by the Public Funds Investment Act; 7) Public funds investment pools which meets the requirements of the Public Funds Investment Act; 8) Commercial paper is an authorized investment if it has a stated maturity of 270 days or fewer from the date of its issuance; and is rated not less than A-1 or P-1 or an equivalent rating by at least two nationally recognized credit rating agencies; or one nationally recognized agency and is fully secured by an irrevocable letter of credit issued by a bank organized and existing under the laws of the United States or any state; 9) Securities lending program as permitted by Government Code 2256.016.

Goodrich Independent School District

Notes to the Financial Statements

The District's investment balances, weighted average maturity, and credit risk of such investments are as follows:

| | August 31, 2018 | Percent of Total Investments | Weighted Average Maturity (Days) | Credit Risk |
|--|---------------------|------------------------------------|---|----------------|
| Investments measured at cost: | | | | |
| Certificates of deposit | \$ 366,182 | 27% | 80 | Not rated* |
| Investments measured at fair value, not subject to level reporting: | | | | |
| Investment pools: | | | | |
| Lone Star Corporate Overnight Plus Fund | 977,356 | 73% | 48 | AAAf |
| Total | \$ 1,343,538 | 100% | | |
| Portfolio weighted average maturity | | | 57 | |

*Certificates are insured or collateralized

Certificates of deposit that are non-negotiable are reported at cost.

Investment pools are measured at amortized cost or net asset value, i.e. fair value. Such investments are not required to be reported in the fair value hierarchy.

The Lone Star Overnight Plus investment pool is an external investment pool measured at fair (NAV) value. Lone Star Overnight Plus' strategy is to seek preservation of principal, liquidity and current income through investment in a diversified portfolio of short-term marketable securities. The District has no unfunded commitments related to the investment pool. Lone Star Overnight Plus has a redemption notice period of one day and may redeem daily. The investment pool's authorities may only impose restrictions on redemptions in the event of a general suspension of trading on major securities market, general banking moratorium or national or state emergency that affects the pool's liquidity.

Credit Risk

For fiscal year 2018, the District invested in Lone Star Overnight Plus Investment Pool. Lone Star Overnight Investment Plus Pool is duly chartered by the State of Texas Interlocal Cooperation Act and is administered by First Public, LLC formerly the Texas Association of School Boards Financial Services. The credit ratings of such investments are noted in the table above. The District's certificates of deposit are not exposed to credit risk and are FDIC insured or collateralized.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates may adversely affect the value of the investments. The District monitors interest rate risk utilizing weighted average maturity analysis. In accordance with its investment policy, the District reduces its exposure to declines in fair values by limiting the weighted average maturity of any internally created pool to no more than 180 days, and any other individual investment not to exceed one year from the time of purchase, unless specifically authorized by the Board of Trustees.

Concentration of Credit Risk

The District's investment policy does not limit an investment in any one issuer. The investment portfolio shall be diversified in terms of investment instruments, maturity scheduling, and financial institutions to reduce risk of loss resulting from over-concentration of assets in a specific class of investments, specific maturity, or specific issuer.

Goodrich Independent School District

Notes to the Financial Statements

Custodial Credit Risk - Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. As of August 31, 2018, District's bank deposits and certificates of deposit were not exposed to custodial credit risk because they were insured and/or collateralized with securities held by the District's agent and in the District's name.

Custodial Credit Risk - Investments

For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District is not exposed to custodial risk due to the investments are held by the District in the District's name.

B. Receivables

Tax revenues in the general fund are reported net of uncollectible amounts. Total uncollectible amounts related to revenues of the current period increased (decreased) revenues as follows:

| | | |
|--|-----------|-------------------|
| Change in uncollectible general fund property taxes | \$ | 600 |
| Change in uncollectible debt service property taxes | | <u>(200)</u> |
| Total change in uncollectibles of the current fiscal year | \$ | <u>400</u> |

Approximately 77% of the outstanding balance of property taxes is not anticipated to be collected within the next year.

C. Interfund Receivables and Payables and Transfers

1. Receivables/Payables

The composition of interfund balances as of August 31, 2018, are as follows:

| <u>Fund</u> | <u>Interfund Receivables</u> | <u>Interfund Payables</u> |
|--------------------------|----------------------------------|-------------------------------|
| General fund | \$ 12,218 | \$ 23,207 |
| Capital projects fund | 23,207 | 8,975 |
| Other governmental funds | <u>-</u> | <u>3,243</u> |
| Totals | <u>\$ 35,425</u> | <u>\$ 35,425</u> |

Interfund balances consist of short-term lending/borrowing arrangements that generally result primarily from payroll and other regularly occurring charges that are primarily paid by the general fund and then charged back to the appropriate other fund. Additionally, some lending/borrowing may occur between two or more nonmajor governmental funds.

Goodrich Independent School District

Notes to the Financial Statements

2. Transfers

There were no interfund transfers between the various funds at August 31, 2018.

D. Capital Assets

Capital asset activity for the fiscal year ended August 31, 2018 was as follows:

| | Beginning Balance | Additions | Reclassifications/ Reductions | Ending Balance |
|--|----------------------|---------------------|----------------------------------|---------------------|
| Governmental activities: | | | | |

| Furniture and equipment | (800,352) | (77,500) | - | (877,852) |
| Total accumulated depreciation | (6,494,276) | (142,494) | - | (6,636,770) |
| Total capital assets, being depreciated, net | 1,812,136 | 20,018 | - | 1,832,154 |
| Governmental activities capital assets, net | \$ 2,171,215 | \$ 1,255,010 | \$ - | \$ 3,426,225 |

Goodrich Independent School District

Notes to the Financial Statements

Depreciation expense was charged to functions/programs of the District as follows:

| | |
|---|--------------------------|
| Governmental activities: | |
| 11 Instruction | \$ 37,419 |
| 12 Instructional resources and media services | 2,151 |
| 13 Curriculum and instructional staff development | 2,371 |
| 23 School leadership | 7,208 |
| 34 Student transportation | 43,037 |
| 35 Food services | 19,904 |

| 51 Plant maintenance and operations | 27,251 |
| 53 Data processing services | <u>323</u> |
| Total depreciation expense-governmental activities | <u>\$ 142,494</u> |

Construction Commitments

The District has active construction projects as of August 31, 2018. The projects include construction renovations of school facilities. At year-end, the District's commitments with contractors are as follows:

| <u>Project</u> | <u>Remaining Commitment</u> |
|-----------------------------|---------------------------------|
| Playground | \$ 97,704 |
| Bus canopies | 67,662 |
| School facility renovations | <u>170,869</u> |
| Totals | <u>\$ 336,235</u> |

The commitment for construction and equipment of school facilities is being financed by general obligation bonds secured by tax revenues and local funds.

Goodrich Independent School District

Notes to the Financial Statements

E. Long-term Liabilities

The District's long-term liabilities consist of bond indebtedness, note payable, and net pension and OPEB liability. The current requirements for general obligation bonds principal and interest expenditures are accounted for in the debt service fund. Other long-term liabilities are generally liquidated with resources of the general fund.

Changes in Long-term Liabilities

Long-term liability activity for the fiscal year ended August 31, 2018 was as follows:

| | Beginning Balance | Additions (Provision) | Reductions | Ending Balance | Due Within One Year |
|--|----------------------|--------------------------|---------------------|---------------------|------------------------|
| Governmental activities: | | | | | |
| Bonds payable: | | | | | |
| General obligation bonds | \$ 2,925,000 | \$ - | \$ (80,000) | \$ 2,845,000 | \$ 85,000 |
| Premium on bonds | 153,149 | - | (6,540) | 146,609 | - |
| Total bonds payable, net | 3,078,149 | - | (86,540) | 2,991,609 | 85,000 |
| Notes payable | 19,309 | 39,715 | (19,309) | 39,715 | 9,239 |
| Compensated absences | 12,825 | 900 | (2,500) | 11,225 | 1,123 |
| Net pension liability | 294,660 | 22,928 | (83,833) | 233,755 | - |
| Net OPEB liability* | 1,527,626 | 146 | (662,482) | 865,290 | - |
| Governmental activities long-term liabilities | \$ 4,932,569 | \$ 63,689 | \$ (854,664) | \$ 4,141,594 | \$ 95,362 |

*Per GASB 75, beginning balance for net OPEB liability includes the restatement of net OPEB liability September 1, 2017.

General Obligation Bonds

The District issues general obligation bonds to provide funds for the construction and equipment of school buildings (BLDG) and to refund general obligation bonds (REF). General obligation bonds are direct obligations and pledge the full faith and credit of the District. General obligation bonds are paid from the Debt Service Fund and funded from future property tax revenues.

The following is a summary of changes in the general obligation bonds for the fiscal year:

| Description | Interest Rate | Original Issue | Maturity Date | Beginning Balance | Additions | Reductions | Ending Balance |
|---------------|------------------|-------------------|------------------|----------------------|-------------|--------------------|---------------------|
| 2016A BLDG | 2.00-3.25% | \$ 2,400,000 | 2041 | \$ 2,400,000 | \$ - | \$ - | \$ 2,400,000 |

Notes Payable

The District issues notes payable to provide funds for purchase of vehicles and equipment and the renovation of school facilities. The notes payable are secured by the vehicles and equipment purchased. The maintenance tax note is secured by the proceeds of a continuing, direct annual ad valorem tax levied for maintenance purposes by the District. The following is a summary of changes in notes payable during the fiscal year:

Note 4. Other Information

A. Risk Management

Health Care Coverage

During the fiscal year ended August 31, 2018, employees of the District were covered by TRS-Active Care (the Plan) a statewide health care coverage program for Texas public education employees, implemented by the Teacher Retirement System of Texas (TRS). The District paid premiums of \$150 per month, per employee to the Plan. Employees, at their option, authorized payroll withholdings to pay premiums for dependents. All premiums were paid to the TRS. The legislature created the Plan for public school employee group health coverage in 2002-03, requiring all Districts with fewer than 500 employees to participate in the Plan.

Goodrich Independent School District

Notes to the Financial Statements

Property/Liability Losses

The District participates in the Texas Association of Public Schools Property and Liability Fund ("Fund"). The Fund was created to formulate, develop and administer a program of modified self-funding for the Fund's membership, obtain competitive costs for coverages and develop a comprehensive loss control program. The District pays an annual premium to the Fund for its coverages and transfers the risk to the Fund. In the event that the Fund was to discontinue operations, the member districts would be responsible for any eligible claims not funded by the pool. There were no significant reductions in insurance coverage from the prior year or settlements exceeding insurance coverage for each of the past three fiscal years.

Workers' Compensation

The District participates in the Texas Association of School Boards Risk Management Fund ("Fund") Workers' Compensation Program. The Fund was created to formulate, develop and administer a program of modified self-funding for the Fund's membership, obtain competitive costs for coverages and develop a comprehensive loss control program. The District pays an annual premium to the Fund for its coverages and transfers the risk to the Fund. In the event that the Fund was to discontinue operations, the member districts would be responsible for any eligible claims not funded by the pool. There were no significant reductions in insurance coverage from the prior year or settlements exceeding insurance coverage for each of the past three fiscal years.

B. Contingencies

The District participates in a number of federal and state financial assistance programs. These programs are subject to financial and compliance audits by the grantor agencies. The District is also subject to audit by the TEA of the attendance data upon which payments from the agency are based. These audits could result in questioned costs or refunds to be paid back to the granting agencies.

C. Defined Benefit Pension Plan

Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detailed information about the TRS's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report (CAFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Notes to the Financial Statements

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan Description above.

Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 through 2017. The 84th Texas Legislature General Appropriations Act (GAA) established the employer contribution rates for Plan fiscal years 2016 and 2017 and the 85th Texas Legislature, GAA established the employer contribution rates for Plan fiscal years 2018 and 2019. Rates for such plan fiscal years are as follows:

| | 2018 | 2017 | 2016 |
|--|------|------|------|
| Member | 7.7% | 7.7% | 7.2% |
| Non-employer contributing entity (state) | 6.8% | 6.8% | 6.8% |
| Employers/district | 6.8% | 6.8% | 6.8% |

The contribution amounts for the District's fiscal year 2018 are as follows:

| | |
|--------------------------------------|-----------|
| District contributions | \$ 25,242 |
| Member contributions | 119,955 |
| NECE on-behalf contributions (state) | 82,151 |

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

Goodrich Independent School District

Notes to the Financial Statements

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member’s salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member’s first 90 days of employment.
- When any part or all of an employee’s salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

Actuarial Assumptions

The total pension liability in the August 31, 2017 actuarial valuation was determined using the following actuarial assumptions:

| | |
|--|------------------------------------|
| Valuation date | August 31, 2017 |
| Actuarial cost method | Individual entry age normal |
| Asset valuation method | Market value |
| Single discount rate | 8.00% |
| Long-term expected rate | 8.00% |
| Municipal bond rate* | N/A* |
| Last year ending August 31 in the 2017 to 2116 projection period (100 years) | 2116 |
| Inflation | 2.50% |
| Salary increases | 3.50% to 9.50% including inflation |
| Ad hoc post-employment benefit changes | None |

* If a municipal bond rate was to be used, the rate would be 3.42% as of August 2017 (i.e. the rate closest to but not later than the Measurement Date). The source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index’s “20-Year Municipal GO AA Index.”

The actuarial methods and assumptions are based primarily on a study of actual experience for the four year period ending August 31, 2014 and adopted on September 24, 2015.

Notes to the Financial Statements

Discount Rate

The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8.0%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2017 are summarized below:

| Asset Class | Target Allocation | Long-Term Expected Geometric Real Rate of Return | Expected Contribution to Long-Term Portfolio Returns* |
|-------------------------------|----------------------|--|---|
| Global equity: | | | |
| U.S. treasuries | 18.0% | 4.6% | 1.0% |

Discount Rate Sensitivity Analysis

The following table presents the District's proportionate share of net pension liability for TRS calculated using the discount rate of 8.0%, as well as the District's proportionate share of the respective net pension liability if it was calculated using a discount rate that is 1% lower (7%) or 1% higher (9%) than the current rate:

| 1% Decrease (7.00%) | Current Discount Rate (8.00%) | 1% Increase (9.00%) |
|------------------------|-------------------------------------|------------------------|
| \$ 394,064 | \$ 233,755 | \$ 100,271 |

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2018, the District reported a liability of \$233,755 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District are as follows:

| | |
|---|---------------------|
| District's proportionate share of the net pension liability | \$ 233,755 |
| State's proportionate share of the net pension liability associated with the district | 883,834 |
| Total | \$ 1,117,589 |

The net pension liability was measured as of August 31, 2017 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2016 through August 31, 2017.

At August 31, 2017, the employer's proportion of the net pension liability was .0007311%, which was a decrease of .0000487% from its proportion measured as of August 31, 2016.

Changes Since the Prior Actuarial Valuation

There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the fiscal year ended August 31, 2018, the District recognized pension expense of \$90,546 and revenue of \$67,415 for support provided by the State.

Goodrich Independent School District

Notes to the Financial Statements

At August 31, 2018, the District reported deferred outflows of resources for contribution made after the measurement date and its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|--|--------------------------------------|-------------------------------------|
| Differences between expected and actual experience | \$ 3,420 | \$ 12,606 |
| Changes of assumptions | 10,648 | 6,096 |
| Net difference between projected and actual earnings on pension plan investments | - | 17,035 |
| Changes in proportion and differences between District contributions and proportionate share of contributions (cost-sharing plan) | 33,254 | 44,771 |
| District contribution after measurement date | 25,242 | - |
| Totals | \$ 72,564 | \$ 80,508 |

\$25,242 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ended August 31, 2019. Other amounts reported as deferred outflows of resources (deferred inflows of resources) related to pensions will be recognized in pension expense as follows:

| Year Ending August 31, | |
|---------------------------|--------------------|
| 2019 | \$ (7,982) |
| 2020 | 6,940 |
| 2021 | (9,128) |
| 2022 | (13,501) |
| 2023 | (7,396) |
| Thereafter | (2,119) |
| Totals | \$ (33,186) |

D. Defined Other Post-Employment Benefit Plan

Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

Goodrich Independent School District

Notes to the Financial Statements

OPEB Plan Fiduciary Net Position

Detail information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided

TRS-Care provides a basic health insurance coverage (TRS-Care 1), at no cost to all retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible retirees and their dependents not enrolled in Medicare may pay premiums to participate in one of two optional insurance plans with more comprehensive benefits (TRS-Care 2 and TRS-Care 3). Eligible retirees and dependents enrolled in Medicare may elect to participate in one of the two Medicare health plans for an additional fee. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for the optional health insurance are based on years of service of the member. The schedule below shows the monthly rates for the average retiree with Medicare Parts A&B coverage, with 20 to 29 years of service for the basic plan and the two optional plans.

TRS-Care Plan Premium Rates
Effective September 1, 2016-December 31, 2017

| Retiree and family | 61 | 237 | 337 |
| Surviving children only | 28 | 62 | 82 |

* or surviving spouse

Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Goodrich Independent School District

Notes to the Financial Statements

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.0% of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

| | 2018 | 2017 |
|---|-------|-------|
| Active Employee | 0.65% | 0.65% |
| Non-employer contribution entity (state) | 1.25% | 1.00% |
| Employers/District | 0.75% | 0.55% |
| Federal/private funding remitted by Employers | 1.25% | 1.00% |

The contribution amounts for the District's fiscal year 2018 are as follows:

| | |
|--------------------------------------|-----------|
| District contributions | \$ 13,493 |
| Member contributions | 10,126 |
| NECE on-behalf contributions (state) | 21,883 |

In addition, the State of Texas contributed \$6,611, \$7,694 and \$6,356 in 2018, 2017, and 2016, respectively, for on-behalf payments for Medicare Part D.

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (*regardless of whether or not they participate in the TRS Care OPEB program*). When employers hire a TRS retiree, they are required to pay to TRS Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$15.6 million in fiscal year 2017 and \$212 million in fiscal year 2018.

Goodrich Independent School District

Notes to the Financial Statements

Actuarial Assumptions

The actuarial valuation of TRS-Care is similar to the actuarial valuations performed for the pension plan, except that the OPEB valuation is more complex. All of the demographic assumptions, including mortality, and most of the economic assumptions are identical to those which were adopted by the Board in 2015 and are based on the 2014 actuarial experience study of TRS.

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females. The post-retirement mortality rates were based on the 2015 TRS of Texas Healthy Pensioner Mortality Tables.

The following additional actuarial methods and assumptions were employed in the August 31, 2017 actuarial valuation of the total OPEB liability:

| | |
|--|--|
| Valuation date | August 31, 2017 |
| Actuarial cost method | Individual entry age normal |
| Inflation | 2.50% |
| Discount rate* | 3.42%* |
| Aging factors | Based on plan specific experience |
| Expenses | Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs. |
| Payroll growth rate | 2.50% |

Discount Rate

A single discount rate of 3.42% was used to measure the total OPEB liability. There was a change of .44% in the discount rate since the previous year. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to *not be able* to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net OPEB Liability

Discount Rate

The following schedule shows the impact of the net OPEB liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (3.42%) in measuring the net OPEB liability.

Sensitivity of the Net OPEB Liability

Healthcare Cost Trend Rates

The following presents the net OPEB liability of the plan using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is 1% lower or 1% higher than the assumed health-care cost trend rate:

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At August 31, 2018, the District reported a liability of \$865,290 for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

| | |
|--|----------------------------|
| District's proportionate share of the net OPEB liability | \$ 865,290 |
| State's proportionate share of the net OPEB liability associated with the District | <u>1,266,357</u> |
| Total | <u>\$ 2,131,647</u> |

Goodrich Independent School District

Notes to the Financial Statements

The net OPEB liability was measured as of August 31, 2017 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The employer's proportion of the net OPEB liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2016 through August 31, 2017.

At August 31, 2017 the employer's proportion of the collective net OPEB liability was .0019898% which was the same proportion measured as of August 31, 2016.

Changes Since the Prior Actuarial Valuation – The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period:

1. Significant plan changes were adopted during the fiscal year ending August 31, 2017. Effective January 1, 2018, only one health plan option will exist (instead of three), and all retirees will be required to contribute monthly premiums for coverage. The health plan changes triggered changes to several of the assumptions, including participation rates, retirement rates, and spousal participation rates.
2. The August 31, 2016 valuation had assumed that the savings related to the Medicare Part D reimbursements would phase out by 2022. This assumption was removed for the August 31, 2017 valuation. Although there is uncertainty regarding these federal subsidies, the new assumption better reflects the current substantive plan. This change was unrelated to the plan amendment, and its impact was included as an assumption change in the reconciliation of the total OPEB liability. This change significantly lowered the OPEB liability.
3. The discount rate changed from 2.98% as of August 31, 2016 to 3.42% as of August 31, 2017. This change lowered the total OPEB liability.

There were no changes of benefit terms that affected measurement of the total OPEB liability during the measurement period.

GASB 75 requires the District to record OPEB expense for the amount of the State's proportionate share of collective OPEB expense that is associated with the District, and record revenue in the same amount for the support provided by the State. For the measurement period ended August 31, 2017, the State's proportionate share of collected OPEB expense was a negative expense of \$8,504,163,580 and the portion of that amount that is associated with the District is a negative expense of \$423,757. This amount is recorded as a negative revenue and negative expense for the year ended August 31, 2018.

For the year ended August 31, 2018, the District recognized total negative OPEB expense of \$713,655, which includes both the District's proportionate share of collective OPEB expense and the portion of the State's proportionate share of collective OPEB expense that is associated with the District, as described above.

Notes to the Financial Statements

At August 31, 2018, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|--|--------------------------------------|-------------------------------------|
| Differences between expected and actual economic experience | \$ - | \$ 18,064 |
| Changes of assumptions | - | 343,889 |
| Net difference between projected and actual earnings on pension plan investments | 131 | - |
| Changes in proportion and differences between District contributions and proportionate share of contributions (cost-sharing plan) | 4 | - |
| District contributions after measurement date | <u>13,493</u> | <u>-</u> |
| Totals | <u><u>\$ 13,628</u></u> | <u><u>\$ 361,953</u></u> |

\$13,493 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the fiscal year ended August 31, 2019. Other amounts reported as deferred outflows of resources (deferred inflows of resources) related to OPEB will be recognized in OPEB expense as follows:

| Year Ending August 31, | |
|---------------------------|----------------------------|
| 2019 | \$ (47,742) |
| 2020 | (47,742) |
| 2021 | (47,742) |

E. Joint Venture-Shared Service Arrangement

The District participates in the following shared service arrangement:

San Jacinto Shared Services – Special Needs Cooperative

The District participates in a shared service arrangement for special education funded under IDEA-B Formula and Preschool and State Supplemental Special Education Funds with Shepherd ISD. The District does not account for revenues or expenditures in these programs and does not disclose them in these financial statements. The revenues and expenditures are disclosed in the financial statements of the fiscal agent, Shepherd ISD. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent, nor does the District have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant financial resources nor fiscal exigencies that would give rise to a future additional benefit or burden to the District. The fiscal agent manager is responsible for all financial activities of the shared service arrangement.

F. Prior Period Adjustment

Net position at September 1, 2017 was restated per the following table for the implementation of GASB 75:

| | <u>Governmental Activities</u> |
|--|------------------------------------|
| Beginning net position, as originally reported | \$ 2,815,959 |
| Implementation of GASB 75 for OPEB | <u>(1,517,006)</u> |
| Beginning net position, restated | <u>\$ 1,298,953</u> |

G. Nonmonetary Transactions

During 2018, the District received textbooks purchased by the State of Texas for the benefit of the District for a purchase price of \$1,673. The District receives the textbooks as part of state funding for textbook allotment. The textbooks have been recorded in the amount of \$1,673 in a special revenue fund as both state revenues and expenditures, which represents the amount of consideration given by the State of Texas.

Notes to the Required Supplementary Information

Note 1. Budget

A. Budgetary Information

Each school district in Texas is required by law to prepare annually a budget of anticipated revenues and expenditures for the General Fund, Debt Service Fund and the National School Breakfast and Lunch Program special revenue fund. The Texas Education Code requires the budget to be prepared no later than August 20 and adopted by August 31 of each year. The budgets are prepared on a basis of accounting that is used for reporting in accordance with generally accepted accounting principles.

The following procedures are followed in establishing the budgetary data reflected in the fund financial schedules:

1. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
3. Prior to September 1, the budget is formally approved and adopted by the Board.

The appropriated budget is prepared by fund and function. The District's campus/department heads may make transfers of appropriations within a campus or department. Transfers of appropriations between campuses or departments require the approval of the District's management. Increasing any one of the functional spending categories, or revenues object accounts and other resources require the approval of the Board. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the function level within a fund. All annual appropriations lapse at fiscal year end and will be appropriated and honored during the subsequent year.

B. Excess of Expenditures Over Appropriations

There was no excess of expenditures over appropriations in the General Fund.

**Independent Auditor's Report on Internal Control over Financial
Reporting and on Compliance and Other Matters Based on an
Audit of Financial Statements Performed in Accordance
with Government Auditing Standards**

The Board of Trustees of
Goodrich Independent School District
Goodrich, Texas

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Goodrich Independent School District (the District) as of and for the fiscal year ended August 31, 2018 and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 14, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceeding paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We consider the deficiency described in the accompanying schedule of findings and responses as item 2018-001 to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

The Board of Trustees of
Goodrich Independent School District

The District's Response to Findings

The District's response to the finding identified in our audit is described in the accompanying corrective action plan. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Material Weakness in Internal Control over Financial Reporting – Inadequate Segregation of Duties

Criteria

Segregation of duties is a basic building block of sustainable risk management and internal controls. The principle of segregation of duties is based on shared responsibilities of a key process that disperses the critical functions of that process to more than one person or department. This concept can be broken down into four categories or functions: authorization, custody, record keeping and reconciliation. A separate individual should be in charge of each critical function, eliminating exclusive control of the process. Without this separation in key processes, fraud and error risks are far less manageable.

Condition

We noted that control over multiple key processes necessary for day-to-day operations are concentrated in two individuals in the business office. The Business Managers perform all accounting functions necessary for day-to-day operations, including preparing and posting all accounting journal entries, performing cash disbursement functions, and preparing financial reports. These individuals maintain unrestricted access to the general ledger and at times performs their respective functions without a secondary review and approval.

Cause

Goodrich Independent School District is a relatively small local government and the organizational structure (including its size and design) permits for only limited segregation of duties.

Effect or Potential Effect

The lack of segregation of duties indicates weaker internal controls and increases the risk that material misstatements could occur in the District's financial statements, whether from error or fraud, and not be detected.

Recommendation

We recommend that the District revisit the segregation of duties over key processes relevant to the accounting and financial reporting functions to further separate incompatible responsibilities and to provide for oversight and review of account reconciliations, maintenance of the general ledger, cash receipts and disbursements activities, and financial reporting.

Dear Ms. Lackey,

Per our meeting on Wednesday, November 7th, 2018 and our phone conversation on Monday, November 12th, 2018, in regards to Material Weakness in Internal Control over Financial Reporting - Inadequate Segregation of Duties, a Corrective Action Plan was developed and will be implemented on Monday, November 26, 2018. The Corrective Action Plan clearly outlines segregation of duties to adequately address concerns that exist over Financial Reporting. The spreadsheet of responsibilities is attached.

Sincerely,
